Author Perry Wood learned the true art of communication in the most unforgiving of situations: standing in front of half a ton of agitated, hypersensitive horse. In ***Secrets of the People Whisperer***, he shows how the same techniques for developing trust and understanding with a horse can work equally well in one's personal, business, family and romantic relationships.

Showing how actions can speak like words, ***Secrets of the People Whisperer*** teaches the reader to be a highly skilled communicator who sends and receives messages that are far more powerful than mere speech. The author's unique methods allow one to clearly relate to and positively influence another person for the mutual benefit of both parties.

The author reveals how mastering this deeper way of communicating improves virtually all aspects of one's life, from work relationships that produce better results to personal relationships that are open, loving and trusting.

About the Author

Perry Wood began working with horses in 1990 and over the past few years has dedicated himself to teaching and lecturing. He lives in the southwestern part of England.
