## The Secret to Solving Relationship Woes

How to Use the Law of Attraction for Love

If you're attracting problem partners, it may be time to reassess how the law of attraction is working in your love life. For thousands of years people have achieved their desires with the Law of Attraction. It has had many names — recently the Secret — but what is it?

According to Debbie Frank, author of *The Law of Attraction for Love*, "The Law of Attraction is simply the way you draw people and life experiences to you. It centers around the magnetic energy of our expectations. You are a magnet. Whatever you have in your life comes to you via the Law of Attraction."

Since we bring what we think about to us, it is important to eliminate negative ideas that will continue to keep us from finding the love we desire.

Frank points out that fear of change can lead us to negative messages that keep us stuck: "If we talk about wanting a relationship, but have a fear of intimacy deep down, then resistance will pop up."

Frank's new book provides exercises for getting a larger perspective of our problems and visualizations to attract the relationship we want. She identifies relationship traps and how to avoid them.

We can ask ourselves the important questions: What is my payoff for remaining stuck? What would my life be like if I carried on like this forever? What am I hoping for? After thinking these things through, Frank suggests visualizing your insights as a brick: "Now lay it down as the foundation of your powerful intention to make the Law of Attraction work for you. You will build up from here."
